1870?

CHINESE NORTHERN YAM.

WE propose to sell the remaining Stock of the CHINESE NORTHERN YAM at the following greatly reduced rates:

TUBERS..... \$3 per 100. \$25 per 1000.
ROOTS (for cutting up) .. 4 per doz. 30 per 100.

We ask attention to the following extracts from letters of those celebrated horticultural authors, Charles Downing, Esq., and F. R. Elliott, Esq.

CHARLES DOWNING, Esq., says (*March 17, 1869*):

“I have nothing to add to my former views of the Chinese Potato. It is still free from disease, perfectly hardy, remaining in the ground during winter, very productive, and, to my taste, equal, if not superior, to any potato I have seen. Those of three years' growth often weigh eight, ten and twelve pounds each.”

F. R. ELLIOTT, Esq., writes (*Feb. 25, 1869*):

“About the Chinese Yam, I only wonder our people do not take hold of it. Once fairly understood, the Potato would be nowhere.”

The Descriptive Pamphlet, by the late WM. R. PRINCE, M.D., LL.D., will be sent to those enclosing Ten Cents.

Make remittances in Checks or Post-Office Orders, if possible.

PRINCE & CO.,
FLUSHING, N. Y.
